Device Installation

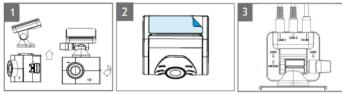

Caution

- Make sure to install the device in a safe area and that the engine is OFF.
- Please check if the Micro SD card is inserted correctly before connecting to power.
- Make sure the installation area is clean.
- Disconnect the power cable if you are not using the device for a long period of time.
- The power cable on the mount must be unplugged before installing or detaching.

Caution when inserting Micro SD card

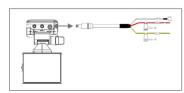

- Do not apply excessive force on the Micro SD card or insert in the wrong direction.
 Any actions which may cause an SD card error, will be the responsibility of the user.
- Make sure the device is turned off when you pull out the SD card.

1. Camera installation

- (1) Select and clean the area where the product will be installed.
- (2) Remove the double-sided tape and press firmly onto the cleaned area.
- (3) Connect the main camera and the mount.
- (4) Connect the angled end of the cable to the rear camera and use the straight end of the cable to connect to either Cam 1 or Cam 2 of the camera mount.
- (5) Connect the power cable & remove a sticker from each camera lens.
- To avoid interrupted reception with other devices such as a navigation, make sure the wiring is not overlapped with enough space in between.

2. Connecting Hardwire Cable

BLACK: GND

YELLOW: BAT (B+)

RED: ACC

Please visit a professional installer to connect hardwire cable.

Using Dashcam Application

1. Live View

2. Home Menu

| No | Description |

Software Update

Do not turn the product off or remove the memory card while the firmware update is in progress. The stored software may be lost or the product may malfunction.

- 1. Remove the memory card with the dash cam turned off.
- 2. Insert the memory card into the memory card reader connected to the PC.
- 3. Copy firmware for upgrade to the root of the micro SD card
- 4. Remove the memory card from the memory card reader connected to the PC.
- 5. Insert the memory card into the product's memory card slot.
- 6. Turn on the vehicle (ACC ON) or start the engine to turn on the dash cam. The firmware upgrade will run automatically.

When the firmware upgrade is completed normally, the product will automatically turn off and then on again.

7. The firmware upgrade is complete.

Using Wi-Fi

You can connect to a Smartphone through the Wi-Fi function to download recorded video, live streaming, and set up the device. Videos are not recorded during Wi-Fi connection.

Press to turn Wi-Fi On.

 When searching for Wi-Fi on a mobile device, it is displayed in the format M7_XXXXXXX.

 Displayed when connection to the M7 Wi-Fi mobile app is successful
 Press the [BACK] button to turn Wi-Fi off.

 Press the [LIVE] button to turn Wi-Fi off.

1. Download M7 Wi-Fi PC Viewer

- Open the Internet browser then download the PC Viewer on the following link in below. https://momentocam.com/resources

2. PC Viewer Compatibility

- The PC Viewer is compatible for both Windows and Mac OS Computers.

3. PC Viewer Manual

- Open the Internet browser then download the manual on the following link in below. https://momentocam.com/resources

IC Certification Compliance Statement

This device complies with Industry Canada's licence-exempt RSSs. "Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device."

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil nedoit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

"This Class B digital apparatus complies with Canadian ICES-003."

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

"This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter."

Cet appareil et son antenne (s) ne doit pas être co-localisés ou fonctionnant en conjonction avec une autre antenne ou transmetteur.

"This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body"

Cet équipement doit être installé et utilisé à une distance minimale de 20cm entre le radiateur et votre corps.

"It is the responsibility of the installer to ensure that when using the outdoor antenna kits, only those antennas certified with the product are used. The use of any antenna other than those certified with the product is expressly forbidden by FCC rules 47 CFR part 15.204 and IC RSS standards."

Il est de la responsabilité de l'installateur de s'assurer que lorsque vous utilisez les kits d'antennes extérieures, seules les antennes certifiés avec le produit sont utilisés. L'utilisation d'une antenne autre que ceux qui sont certifiés avec le produit est expressément interdite par la réalementation FCC partie 47 CFR 15.204 et IC normes RSS.
